

Farseer Healing Guide

For most cases the [hyrbid guide](#) is more than sufficient. This soul is very strong on healing the people who have taken damage, focusing your healing through the Tank and letting your heals spread to the most-wounded near you and your target rather than over-healing the entire raid for the same amount. The more people in your group the faster your cool downs will come back, for clarity I'm referring to the given CD times rather than the in-practice CD times which will be much shorter.

31 Farseer, 8 preserver, 0 Titan.

Points in Preserver: Fixation 4/4, Blossom Shower 1/1, Resilient Growth 1/1, Roaring Rapids 2/4.

Legendaries: Essence Strike, Cultivate, Thread of Fate, Inner Peace, Fortune Protection.

Masteries 61-65: 1 3 (3/4) 3 (1/4)

Primordial Strength, Forest Matron, Leonine Ferocity/Vulpine Cunning, Nature's Blessing / Ancestral Force

Crystal: Medico's Crystal

Buffs: Thread of Fate, Delayed Fate, (Nature's Blessing)

How to Play:

Blossoms are applied by full-casting Nurture on to the Tank pre-pull, and then kept up by doing 1 tick of Nurture every 14s. (You want to be as close to full cunning as possible on pull)

Ensure you are at 5 *Soul Fragments* pre-pull either by using Shatter Soul pre-pull or spamming Cultivate macro.

If you have 5s countdown before the pull / on the pull if you didn't have that much notice:

Apply (Empowered) Soul Shroud to heal 10 wounded raid members within 20m of you over 20s. (Ideally at full cunning)

Spam Cultivate Macro until Cultivate is on CD then spam Fortune Protection macro until it is also showing on CD.

On pull apply Essence Strike to the boss or main target (this does damage so do not apply pre-pull!).

Apply (Empowered) Predestination to the Tank, giving you 35% increased healing on them as well as heals applied whenever they are attacked.

Your goal is to keep up Empowered Soul Shroud (at as close to full-cunning as possible), Empowered Predestination and maintain your *Soul Fragments*, as well as keep Essence Strike applied to the boss or main target, whilst not letting your 5 blossoms on the tank fall off :-

- Your Fortune Protection macro will consume *Soul Fragments* for 400% more heals but prevent you gaining *Soul Fragments* from casting Insight.
- Your Cultivate macro will generate *Soul Fragments* from casting Insight
- For those moments you screw up and need a bigger Fortune Protection heal or to empower an ability, every 30s there is Shatter Soul which gives you 5 *Soul Fragments* regardless of your Fate buff.
- Do 1s cast of Nurture Every 14s to keep your 5 blossoms on the tank and thus the reduced cast-time of Insight from casting Cultivate.

We deliberately do 5 seconds of healing between Soul Shroud and Predestination to allow Empower Soul to come off its 5s CD, you can always apply a normal Predestination and then an Empowered one later for the extra 15% healing and an automatic Empowered Spiritual Guidance, at the cost of an extra GCD.

You have 4 cool-downs, all of which are reduced by ticks of Prescience which scales very well with 10 or more people in your raid:

- Primal Avatar: Ouroborous - 2min - Insight and Fortune Protection also cause the targets to heal for 7% of their missing health.
- Inner Peace - 2min - Heals 10 people within 25m every 0.5s for 5s and applies HoT to affected targets which will spread as it ticks to any other raid members.
- Oversoul - 2min - Places a "beacon" for 20s at target location and any allies within 15m redistribute 100% of their overhealing to nearby wounded. Anyone in 15m takes 7% less damage.
- Spirit Sight - 2min -Any overhealing you do is sent to nearby wounded for 12s.

Hybrid Healing Guide

This hybrid guide builds on the [Farseer Guide](#) to focus your healing through the Tank and let your heals spread to the most-wounded near you and your target. This hybrid gains much shorter cast times and simpler play-style with very little lost healing.

22 Farseer, 17 preserver, 0 Titan.

Legendaries: Essence Strike, Thread of Fate, Inner Peace, Cultivate, Deluge.

Masteries 61-65: 4 3 (3/4) 3 4

Crystal: Medico's Crystal

Buffs: Thread of Fate, Delayed Fate

How to Play:

Prepull: Empowered Soul Shroud, (Wait for empower soul to come off CD) Empowered Predestination, Serenity,
On Pull: Essence Strike

Blossoms are applied by deluge in the hybrid spam. Keep these up (the kalerts will prompt you to refresh) and spam the hybrid cultivate macro. If the tank for some reason is missing an absorb / health, throw an essence flow onto the tank. Try to keep Serenity up on the tank's location. The maximum cast time you will ever have is 0.5s, go wild with that spam macro!

If the raid dips use Oversoul & Ancestral Force, the next time use Inner Peace, this will cause both your CDs to come back quickly.

You have 2 cool-downs, which are reduced by ticks of Prescience (applied by your Spam Macro and Inner Peace) which scales very well with 10 or more people in your raid:

Oversoul - 2min - Places a "beacon" for 20s at target location and any allies within 15m redistribute 100% of their overhealing to nearby wounded. Anyone in 15m takes 7% less damage.

Ancestral Force / Nature's Blessing - You 65th Mastery gives you an Ascended Power. Partnered with Oversoul it's a powerful AOE heal.

Inner Peace - 2min - Heals 10 people within 25m every 0.5s for 5s and applies HoT to affected targets which will spread as it ticks to any other raid members.

Other than macros the abilities you need on your bar:

Reversal of Fortune - AOE Cleanse

Materialize Soul - Combat Res

Essence Strike - Your Debuff to put on targets that your raid are attacking - 5% increased healing and passive heals on those who attack your marked targets.
